

## ERRATUM

### NOTICE TO ALL COMPENSATION FUND PENSIONERS

The previous Notice erroneously indicated the pension increase cycle as 2021/2022. This is incorrect.

The pension increase of 4.5% is for the **2022/2023** cycle.

The implementation remains as communicated:

- a. The 4.5% increase in pensions will be implemented with the October 2022 pension payments.
- b. The accrual payments, effective from 1 April 2022 will be implemented with the November 2022 pension payments.

The Compensation Fund wishes to thank all Pensioners for their patience during this process.
