

LABOUR MARKET POLICY: Launching the LMIS.Stat and Disseminating Research report

18 September 2024

Labour Market Policy, in LP&IR Branch

Is launching something new, be the first to know and the first to experience it:

1. The Labour Market Information System (**LMI.Stat**) is one of the most advanced statistical information system platforms currently used in the official statistics community. LMI.Stat aims to be the cutting edge in disseminating information on a single integrated platform.
2. In ensuring efforts to accessing social protection for all, we launch the research report that aims to point to concerning areas of social protection for missing middle in the labour market.

We are thrilled to invite you to attend this important event to enhance knowledge in our working environment.
